DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 1, 25, and 30 each recite the same tilting mechanism for tilting the supporting surfaces. The prior art fails to anticipate or render obvious the specific configuration recited including two cams rotated about a common axis which is parallel to and spaced apart from the axis of tilt, and the common axis of rotation also spaced apart from the cams themselves. Claims 31 and 32 include features previously found to be allowable and discussed in previous office actions over the course of the case.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Hageman whose telephone number is (571) 272-3027. The examiner can normally be reached on M-F 7:30-4:00.
